C. How does the bonus program work

- 1** By depositing in to your trading account in your Trader Room, you will able to choose % of the “Deposit Bonus”. The Deposit Bonus will be added to your trading account in the form of a credit.
 Example: You deposit \$1000 to your account and choose 25% bonus. Your equity will be \$1250, credit will be \$250, but your balance remains \$1000.
- 2** You are trading as usual on your trading account forming a trading turnover. For each trade, that passes MTP conditions, you will receive a share of the spread which goes to your “Deposit Bonus” .
 Example: You open a trade on EURUSD (Classic account) with value of 1 Lot. Total spread for this trade is \$20, so $20 * 0.175 = \$3.5$ goes to your “Deposit Bonus”.
- 3** Once the trading turnover shares reach 100% amount of “Deposit Bonus” (in our example \$250), real funds will be automatically credited to your trading balance.

 1. If you have more than one “Deposit Bonus” activated, then all trading turnover applies for the first “Deposit Bonus” until it reaches the amount of the “Deposit Bonus”, and then it is used for the next Deposit Bonus.
 2. You can check the status of your “Deposit Bonus” at any time in your Trader Room.
